

## **Dr. Cheng Kwok Shing Gary**

He is an Associate Professor in the Department of Mathematics and Information Technology at The Education University of Hong Kong (EdUHK). He obtained his PhD in computing at the Hong Kong Polytechnic University and has specialised in teaching Information Technology in education for over a decade. With substantial years of work experience in Hong Kong academia, Dr. Cheng has built a wealth of knowledge and a network of support to unleash the potential of technology for teacher education. He has a proven track record of exploring and evaluating the use of emerging technologies to enhance teaching and learning. Over the years, Dr. Cheng has been involved in research projects funded by EdUHK and the Research Grant Council of Hong Kong on a range of topics mainly related to technology enhanced learning. He has also devoted himself to organising events and activities to promote coding, STEM and AI in education, such as Inter-Primary School Mobile Apps Design Competition (2017), STEAM Education: 3D Chinese Cultural Architectural Design Competition (2018), STEM Competition in Smart Product Design (2019), Workshop and Seminar Series on Big Data/AI with Applications to Education and Beyond (2020), International Conference on Education and Artificial Intelligence (2020).
